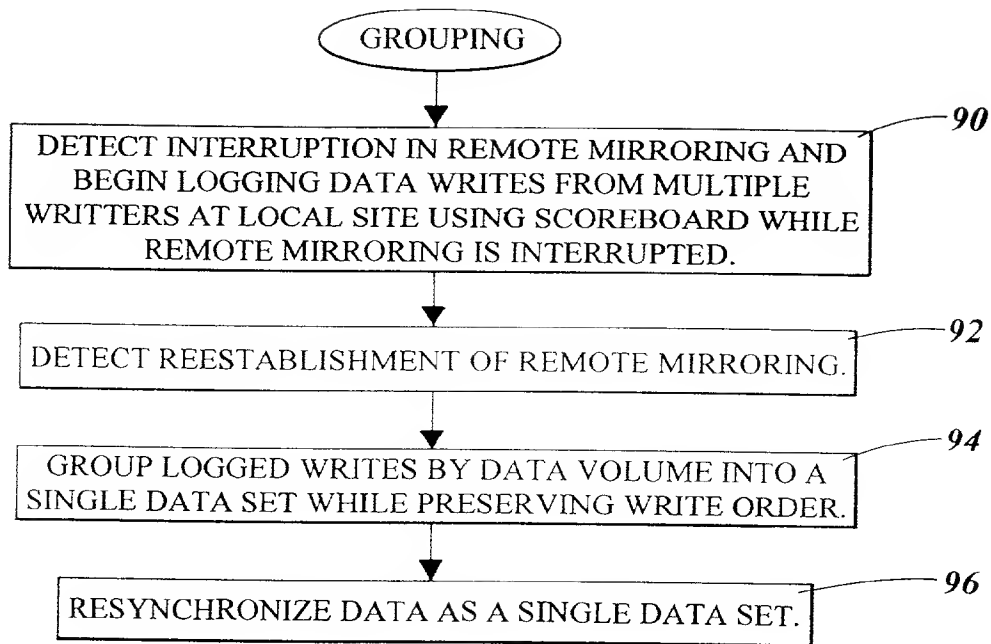

*FIG. 5*

FIG. 6 is a block diagram of a system 10 for data replication between a local site 12 and a remote site 14. The local site 12 includes a host 16 and a replication facility 20. The remote site 14 includes a host 18 and a replication facility 20'. Both sites are connected to a storage device 24 at the local site and a storage device 26 at the remote site. The storage devices 24 and 26 each contain a volume 100 and a volume 102, respectively. A network 28 connects the local site 12 and the remote site 14.
